The DELAKTIG series can be described as a whole new way of thinking about furniture. Together with designer Tom Dixon, production methods and airplane materials inspired us to create this sofa series. To manufacture aluminium frames, a material with greater stability and less weight than wood, of which 50% is also recycled, is really something new. A starting point to explore more possibilities with flexible solutions that suit your home better. But it's also about what happens when your needs change or you decide to throw things away. The DELAKTIG series really has a renewable life, in several ways. Or to put in the designer's words himself: "Don't throw away the DELAKTIG series when you're done with it - let it be something else, something new. Or save it for the children so that they can take it with them when they move away from home."

All the products (shown here) may not be available at the store. Please contact the staff or look at www.IKEA.gr for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

HOW TO BUILD

Start by choosing a platform – armchair, 2-seat or 3-seat sofa. Then complete with backrest/armrests, side tables and lamps so that you get exactly the piece of furniture that suits your needs and space best. If you want to make it even more personal, you can also choose different covers for each part.

COMBINATIONS

The combinations below are examples of possible solutions.

Overall size: 94×84×79 cm

Having a modern and flexible home doesn't need to mean not choosing the most typical sofa combination. You can choose different fabrics and also fix the backrests as you like so that you can use the sofa from both sides.
Overall size: 149×84×79 cm

DELAKTIG armchair total price incl. cover

This product meets the requirements for strength, durability and safety set forth in the standard EN 16139 for non-domestic use and fulfills the assessment of ignitability standard EN1021-1.

GOOD TO KNOW

Our fabrics have been tested

At IKEA we test the fabric covers on our sofas and armchairs so you can be sure they're durable. The fabric's ability to resist abrasion is tested by using a machine to rub it against another fabric while applying firm pressure. A fabric that can take 15,000 cycles is suitable for furniture that must withstand everyday life at home – and if it can take more than 30,000 cycles, it is very resistant to abrasion. All fabrics are sensitive to sunlight, which is why we also check that our fabrics resist fading effectively.

Durable in different ways

Tough tests are an important way to check the durability of our fabric covers, but they don't tell the whole story. Durability also depends on materials, construction and manner of use. Heavy, tightly woven fabrics with a flat surface are most resistant to abrasion. Fabrics with a mixture of natural and synthetic fibres can withstand abrasion better than fabrics with only natural fibers. Yarn-dyed fabrics are more durable than fabrics with printed patterns. And a dirty cover wears out faster than a clean one. The fabric is also affected by how you use your sofa of course.

	Washing instructions	Resistance to abrasion (cycles)	Light fastness (0-6)
HILLARED: Multi-fiber blended and tonal yarn dyed structure.	Machine washable at 40°C.	30,000	5
TALLMYRA: Soft chenille quality with slight lustre and warm handle, in two tone effects	Machine washable at 40°C.	30,000	5
GUNNARED: Plain weave with tone-in-tone colour effect. 100% polyester.	Machine washable at 40°C.	50,000	6
