New payment plan without a card

**Instant Loan**  
6 to 48 monthly installments

The elegant LANDSKRONA sofa series can easily be adapted to your home and your life. Choose the number of seats, shape and functions. If the family grows and the needs change, you can add to your sofa and let it grow with you. Choose a cover in leather and coated fabric, or in fabric and choose if you want sofa legs in wood or metal. Matching sleeves for the legs are included.

This soft and welcoming sofa will last a long time since the seat cushions are filled with high resilience foam that gives good support for your body and quickly regains its original shape when you get up. Practical functions, plenty of combination possibilities and slim dimensions make the series easy to furnish with, regardless of what your home looks like.

Interest-free installments

with all credit cards.

# GOOD TO KNOW

## **LANDSKRONA in leather and coated fabric**

LANDSKRONA leather sofa is a combination of our 1,2 mm thick grain leather called GRANN, which is a soft yet durable dyed through leather, and BOMSTAD coated fabric. Coated fabric has the look and feel of leather at a lower cost.

This is why IKEA often uses a combination of both, with leather on direct contacts areas such as seating surfaces and armrests (1), and coated fabric on other outer surfaces (2).

### **Grain leather**

The natural variations in the hide are visible, as the leather is treated with only a light colour coating for protection. The leather will acquire a beautiful patina over time. It's also easy to care for – just vacuum regularly with the soft brush attachment on your vacuum cleaner.

### **Coated fabric**

Coated fabric is a fabric material with a coating, which can be embossed to look like leather. It's a strong and durable material and very easy to care for – just vacuum the surface using the soft brush attachment on your vacuum cleaner and wipe with a damp cloth.

### **Durability**

All our different leather and coated fabrics have been treated to protect them and make them easy for you to look after. All have also been tested and approved for tear strength, flexibility and colour fastness, so you can be sure you will enjoy your new sofa or armchair for many years to come.

### **Our fabrics have been tested**

At IKEA we test the fabric covers on our sofas and armchairs

so you can be sure they're durable. The fabric's ability to resist abrasion is tested by using a machine to rub it against another fabric while applying firm pressure. A fabric that can take 15,000 cycles is suitable for furniture that must withstand everyday life at home – and if it can take more than 30,000 cycles, it is very resistant to abrasion. All fabrics are sensitive to sunlight, which is why we also check that our fabrics resist fading effectively.

### **Durable in different ways**

Tough tests are an important way to check the durability of our fabric covers, but they don't tell the whole story. Durability also depends on materials, construction and manner of use. Heavy, tightly woven fabrics with a flat surface are most resistant to abrasion. Fabrics with a mixture of natural and synthetic fibres can withstand abrasion better than fabrics with only natural fibers. Yarn.dyed fabrics are more durable than fabrics with printed patterns. And a dirty cover wears out faster than a clean one. The fabric is also affected by how you use your sofa of course.
